

Installation, Operation & Maintenance Manual

MODEL RJ15

ROLLING JACK

(Model 4030 Series 4-Post)

15,000 lbs Capacity

2311 South Park Rd Louisville, Kentucky 40219
Email: Challengerlifts@soe.freshdesk.com Phone: 800-648-5438

IMPORTANT: READ THIS MANUAL COMPLETELY
BEFORE INSTALLING or OPERATING JACK

⚠ CAUTION

- ◆ Before using this product, read and fully understand the operating instructions and all decals on the product. This is necessary to prevent injury to the operator and damage to the product.
- ◆ Roll jack forward before moving vehicle on or off lift.
- ◆ Do not attempt to use this jack for anything other than its intended purpose.
- ◆ If jack begins to tilt as the vehicle is raised, STOP! Lower jack and reposition the vehicle.
- ◆ Do not use this jack if it is visibly worn, distorted or damaged.
- ◆ Maximum air operating pressure not exceed 150 p.s.i.
- ◆ Always wear appropriate eye protection.

⚠ WARNING

- ◆ Lifting capacity of this jack is 1500lbs (Hydraulic Pressure at Cap. = 5200 psi) Exceeding this could result in severe personal injury or death.
- ◆ When the total lifting capacity of 2 rolling jacks differs from the rated capacity of the lift they are used on, the capacity of each jack should not exceed 1/2 the total capacity of the runways. Exceeding this could result in severe personal injury or death.
- ◆ Lift vehicle at manufacturer's recommended pick-up points only. Vehicle weight must be evenly distributed on each jack lift pad.
- ◆ Keep fingers and hands clear of all pinch points at all times.

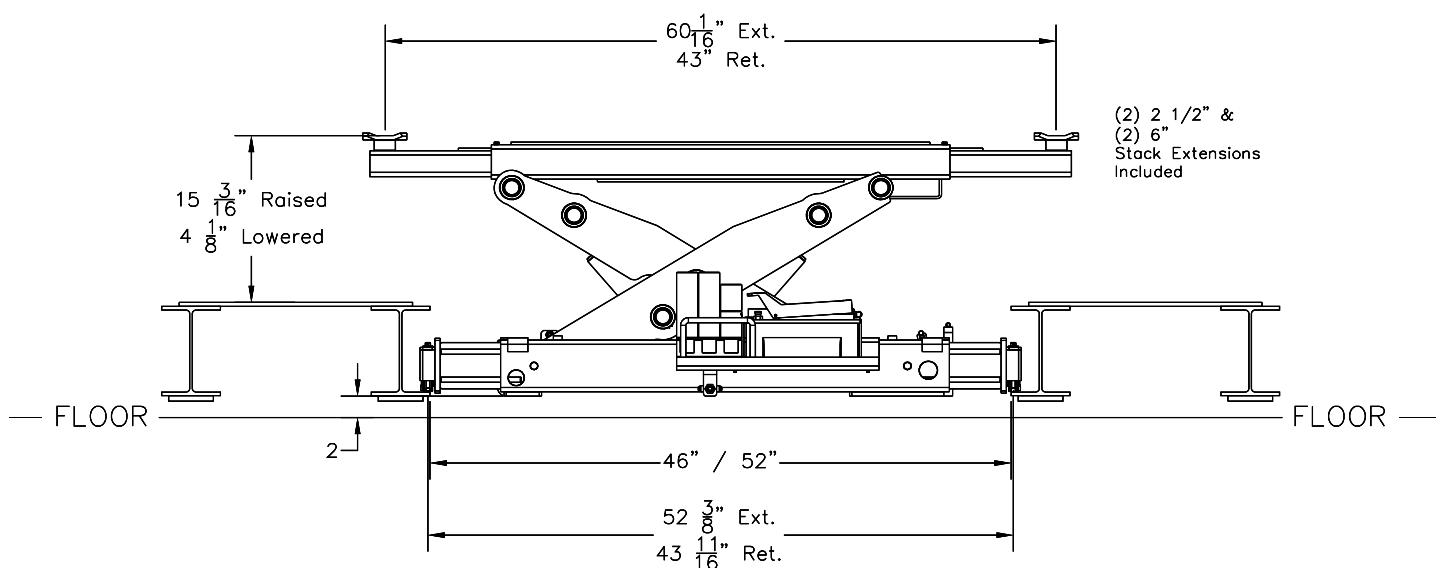

Fig. 1

RJ15 Installation, Operation and Maintenance Manual

INSTALLATION

- 1) Install a $\frac{1}{4}$ NPT male quick disconnect coupling in air inlet of F.L.R. preinstalled on jack. Match to shop fittings.
- 2) Loosen side-member locking bolts, (4) hex head (17mm) bolt – 2 per side, and remove capture plates (4) hex head (9/16") bolt – 2 per side), Fig. 2.
- 3) Place jack assembly centered on lift rack rails and install capture plates as shown in Fig. 2.
- 4) Adjust the capture plates up to but without touching the bottom of the runway. Roll the jack down the length of the runway to ensure proper clearance between the bottom of the runway and the capture plates and check position of the side-members for proper roller wheel clearance.
- 5) Tighten the side-member locking bolts and lock them in place with the jam nuts.

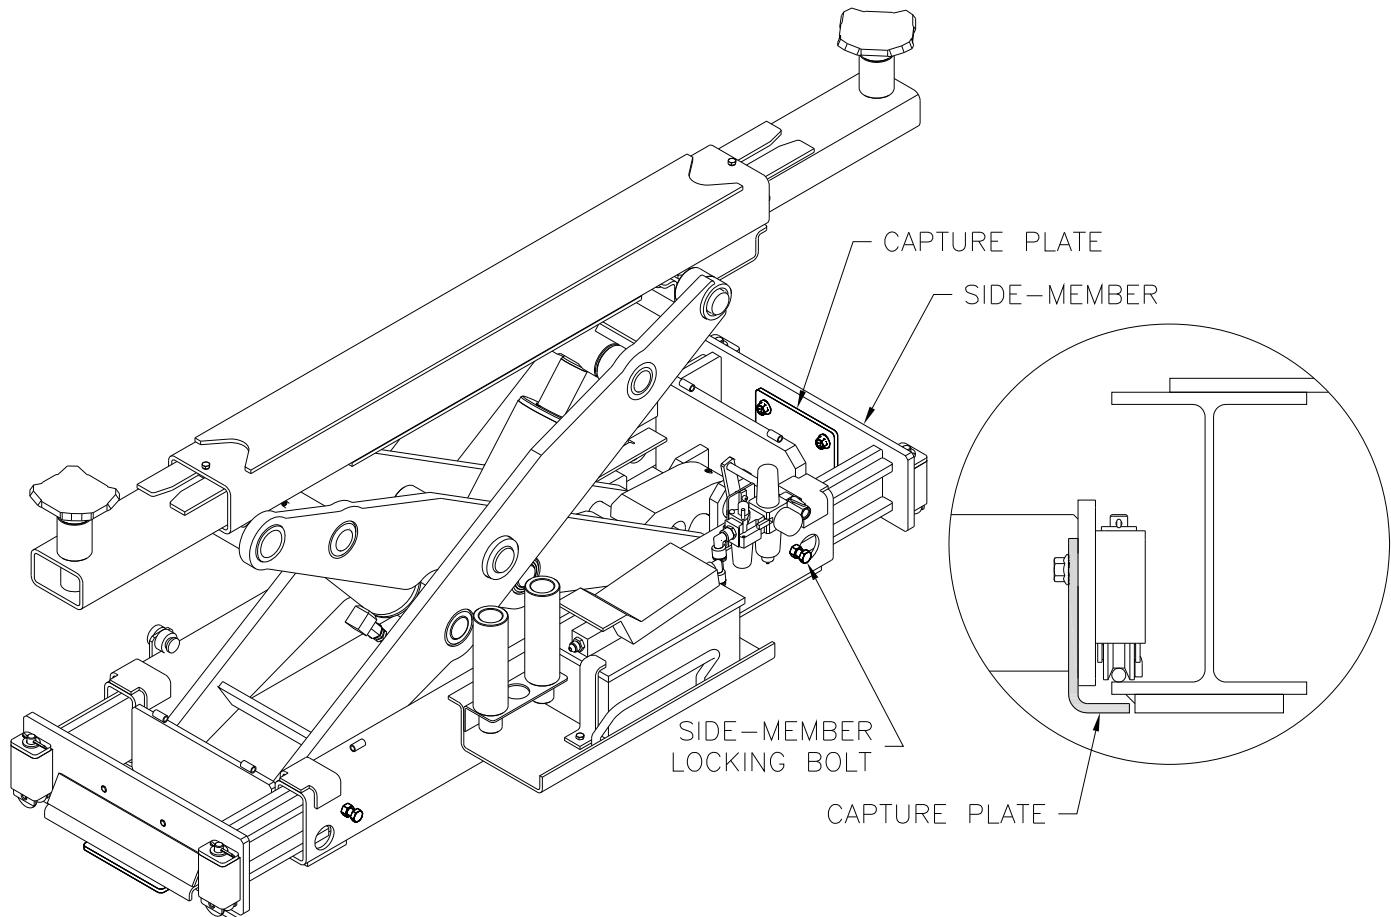

Fig. 2

Operation

Note: Before lifting a vehicle, operate the jack through a couple of cycles to become familiar with the controls.

- 1) Roll jack forward before moving vehicle on lift rack. Be sure vehicle is centered on rack, apply parking brake and chock wheels.
- 2) Roll jack(s) to the vehicle manufacturer's recommended pick-up points. Extend lift pad arms to proper lift points. Use lift pad spacers if necessary.
- 3) Raise jack by pushing on foot pedal on pump.
- 4) Raise vehicle to desired height.
- 5) Lower jack onto lock.
- 6) To lower jack completely, raise off of lock and while holding lock release handle open lower jack. Push lift pad arms in, remove lift pad spacers (if used). Roll jack forward before moving vehicle off rack.

Loss of power

If for any reason the lift will not raise off the locks or the locks will not retract, consult factory authorized personnel.

DO NOT OVERRIDE ANY SAFETY FEATURE IN AN ATTEMPT TO LOWER THE LIFT.

Maintenance

Daily: Inspect jack and its components for damage or excessive wear. Replace parts as required. See parts list.

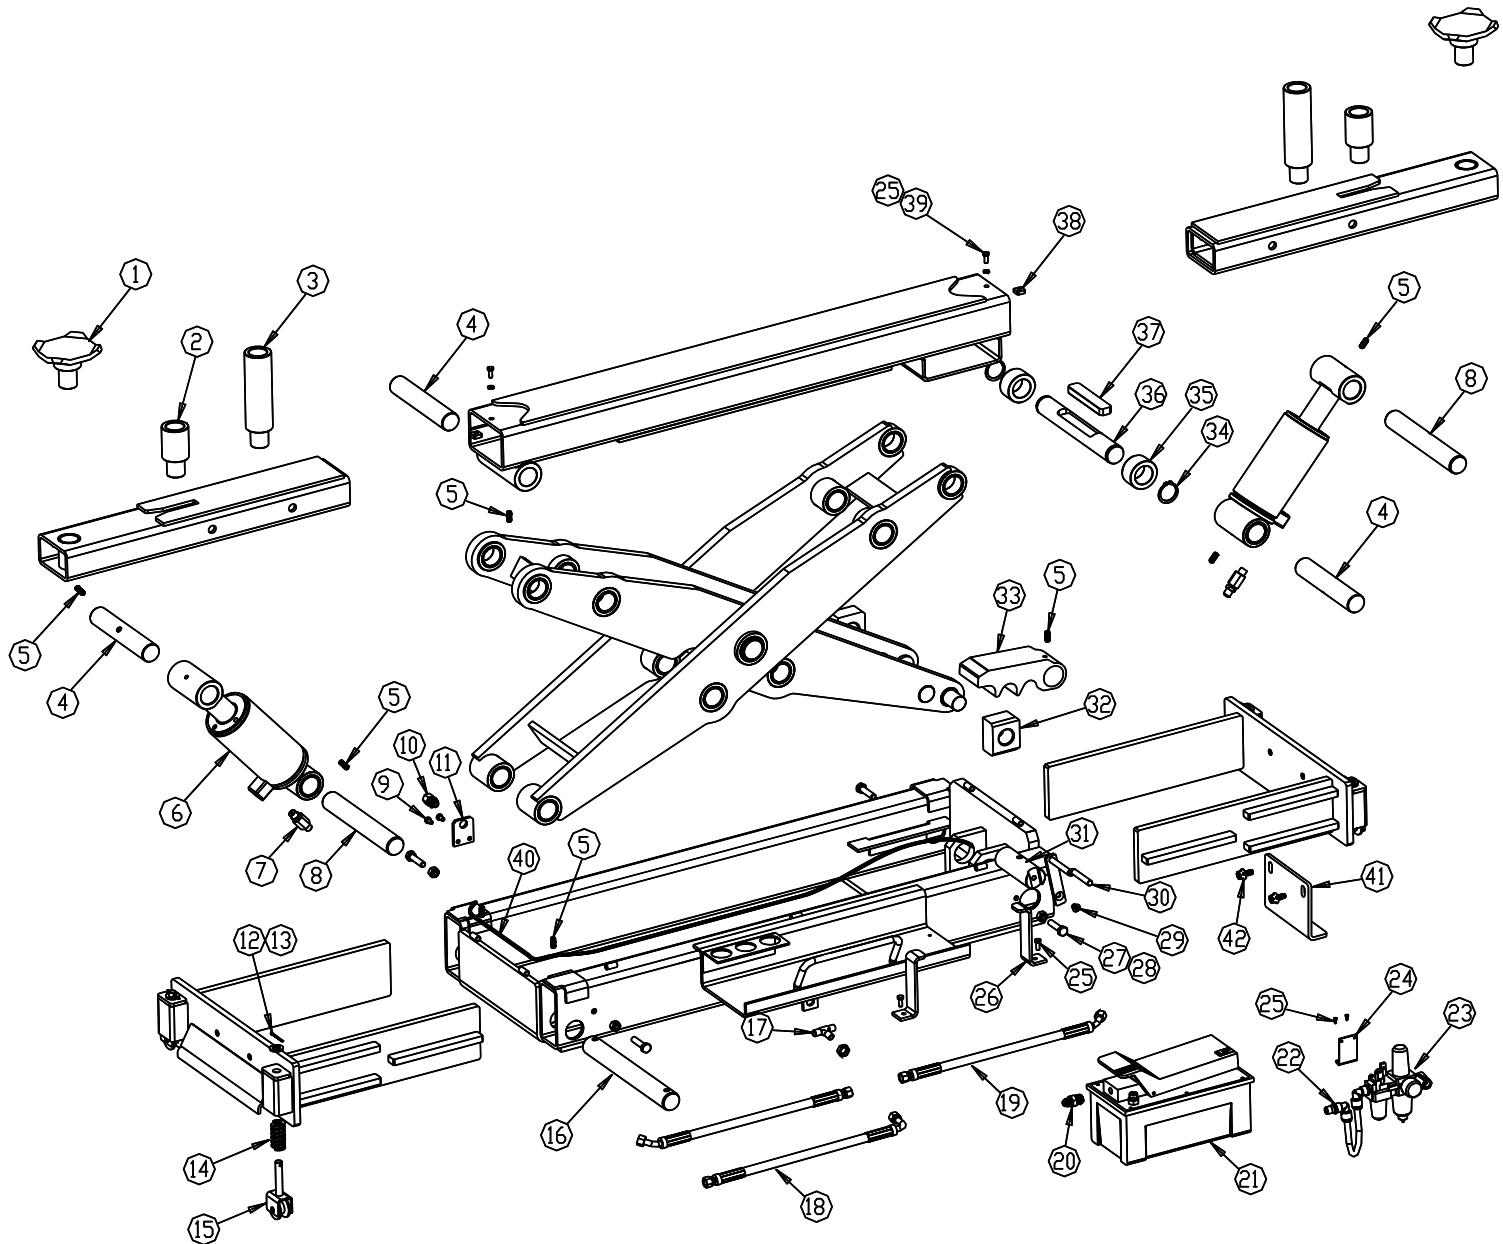

Inspect air/hydraulic system for leaks. Check in-line lubricator oil level.

Annually: Check hydraulic pump fluid level. When jack is completely lowered remove breather plug and check oil level. Oil should be at top of filler plug hole.

IMPORTANT!

Failure to keep lift free of corrosive agents and solvents will lead to reduced service life, which could result in property damage and/or personal injury. If any problems are encountered, contact your local service representative.

Parts Breakdown

IMPORTANT!

Replace all worn, damaged, or broken parts with parts approved by **Challenger Lifts Inc.**
or with parts meeting **Challenger Lifts Inc.** specifications.
Contact your local Challenger Lifts Parts Distributor for pricing and availability.
